17.18 Accidental Poisoning in Children*

Assessment	Nursing Diagnosis	Plan / Expected Outcome	Nursing Interventions	Evaluation
Subjective • Mother says, "He drank something from the cupboard." **Objective** • Swallowed an unknown liquid • Medicines and chemicals within reach at home	**ACTUAL** Inadequate health knowledge [parental] related to safe storage of medicines and chemicals as evidenced by hazardous storage at home.	• Before discharge, the parent explains safe storage.	• Teach locked storage of medicines and chemicals, out of reach. • Advise keeping products in their original containers. • Give the poison information number.	• Goal reached when the measures are explained.
Subjective • Mother says, "It is my fault." **Objective** • Crying • Blames herself	**ACTUAL** Excessive anxiety [parental] related to the child's poisoning and guilt as evidenced by crying and self-blame.	• Mother voices her feelings and feels supported.	• Offer support without judgment. • Keep her informed.	• Met when she is calmer.
Subjective *No specific complaint* **Objective** • Toddler who explores • Unsafe storage	**RISK** Risk for accidental poisoning as evidenced by risk factors: accessible medicines and chemicals at home.	• No further poisoning.	• Teach home safety. • Arrange follow-up. • Teach use of child-resistant containers.	• Achieved if it does not happen again.
