2.17 Total Parenteral Nutrition

Assessment	Nursing Diagnosis	Plan / Expected Outcome	Nursing Interventions	Evaluation
Subjective • Lost 6 kg in 1 month **Objective** • Underweight • Low albumin • Cannot tolerate enteral feeds	**ACTUAL** **Imbalanced nutrition: less than body requirements** related to inability to absorb nutrients as evidenced by weight loss and low albumin.	Weight steady or rising within 1 week.	• Give TPN by infusion pump at the prescribed rate. • Never stop TPN suddenly; taper as ordered. • Weigh daily at the same time. • Follow electrolytes, glucose, liver function and triglycerides as ordered. • TPN lumen for TPN only.	Weight steady or rising: **goal met**.
Subjective • "My mouth feels dry." **Objective** • Mouth dry • NPO	**ACTUAL** **Impaired oral mucous membrane integrity** related to NPO status as evidenced by dry mucosa.	Mouth moist within 24 hours.	• Mouth care every 4 hours, soft brush. • Moisturise the lips. • Use the prescribed mouth rinse. • Check the mouth daily for ulcers or thrush.	Mouth moist: **goal met**.
Subjective • *No specific complaint* **Objective** • High-dextrose infusion • Critically ill	**RISK** **Risk for unstable blood glucose level** as evidenced by risk factors: TPN infusion.	Glucose stays in target range.	• Glucose every 6 hours, or as ordered. • Give insulin as prescribed. • Report signs of hypo- or hyperglycemia.	Glucose within target: **goal met**.
